**Reading and Approval of Minutes**

1. General Senate Meeting Minutes #19, 107th Senate - February 5

*President Li* I move to accept the reading and approval of minutes for GSM #19 of the 107th Senate.

*Senator Armstrong  
Patterson*

Second.  
*Motion passes.*

*SAL Manabe*

Last general I asked the librarian two questions but only one of my questions are on the minutes. I asked one about how professors use the library and how the library plans to engage with students and grad students. I would like this included in the minutes. I would like to make a motion to include what I just said into the minutes.

*President Li*

Is there a second to the motion?

- SAL Kim* Second.
- President Li* All in favor of the motion say aye.
- Vote was unanimously in favor; Motion carries.*
- President Li* Anything else?
- SAL Leval* I asked a question that also wasn't included about if Hamilton will be 24/5 while Sinclair will be under construction. Prior to that I also asked a question about if they thought about the hassle of "Save Sinclair" and we have him on record saying that he supports students having a 24/5 study space. I think that should be included in the record. I move to include in the minutes what I just said.
- President Li* Is there a second to the motion?
- SAL Manabe* Second.
- President Li* Discussion? If not, all those in favor of the motion say aye.
- Vote was unanimously in favor; Motion carries.*
- President Li* Anything else?
- Senator Salameh* Can I make a motion to change the person who reported finance, to replace it with Vice-chair person Baguio?
- President Li* Is there a second to the motion?
- Senator Armstrong  
Patterson* Second.
- President Li* All in favor of changing the Finance Committee's report say aye.
- Vote was unanimously in favor; Motion carries.*
- The minutes of General Senate Meeting #19 with amendments was approved.*

##### **1. Student Discount Call Day**

- President Li* I want us to all sit down and briefly discuss. We have a lot of places to eat around Campus. There are places such as Manoa Marketplace, Puck's Alley, Waialae Avenue, Market City, Kaimuki where students make up a large portion of their customers. I had an idea that we can ask businesses to provide some incentive for us to go to their places

and we can advertise them on our social media and our websites. If you are interested in calling these businesses, please fill out the When2Meet and we can schedule a call day. I have a script prepared. This will help lower food costs for students

## **2. College Mergers - Arts & Humanities, SPAS, LLL**

*President Li*  
that

You may remember when TIM and Shidler merged. However, I mentioned back then

those colleges wouldn't be the only merge we would go through. The other major merge going on will be with the College of Arts and Humanities, School of Pacific Asian Studies, and language literature and linguistics. So they want to combine this into a mega college called College of Arts and Letters. This falls under the college of arts and sciences. So this merge would factor into the social science side and end up becoming the largest college on UH affecting 1000 students. We want to make sure no resources are being cut from students and make sure there is minimal detrimental impact on students. I just wanted to put this on your guys' map because I'm meeting with the Vice Chancellor Laura Lions next week to further discuss how we can get student input on this. If you are interested in joining the conversation please let me know.

## **3. Outreach College Changes**

*President Li*

Another big change happening that will affect a lot of students are online class course listings. Extension courses are Outreach college classes . and the difference is you pay by credit. Even though UH manoa has a 12 credit policy. Outreach college was circumnavigating that. The issue is on the department end, Students are being overcharged and now the school is working out a system so outreach college doesn't overcharge. Departments are incentivized to offer outreach college classes because anyone who signs up for the outreach college class, the department directly gets the tuition money from that student. There is no admin middle man. Bruno has been working on a solution for this issue, making all online courses for day school only but also outreach college, so it will be double listed. So if you want to sign up for an online class and you're signed up for day school courses, you cannot sign up for outreach college courses. So my concern is how can we make sure students still have access to online classes. The department is saying without the money they can't offer the regular online classes, which is why they need the outreach college class funds to provide online classes. So Bruno has a proposal that he is going to pay out from his office application money to keep those courses running. This is a lot of money departments get from outreach college. By removing this funding mechanism, some departments are almost crippled. Bruno will allocate money from his department to help offset that. I just wanted all of us to be aware that this is happening. I just came from a faculty meeting where Bruno unveiled his proposal. I just wanted to make sure they heard that they don't decrease the availability of online classes because students like online classes. I wanted to make sure course listings are not impacted and students are not overcharged. If you have any questions, come speak to me. If this proposal goes through, the changes will start happening next year.

*SAL Kim*

I think one of the only issues I have with this is that last semester in December, all of us who knew about this operated by rumors. So there is a continued issue of where the hell were students in this discussion. So yeah.

*President Li*

The only reason why I heard about it was through GSO. For graduate students, a lot of their lecture positions are funded through outreach college funds. GSO asked us for input. Bruno might point to that as consultation but it was just me and him talking one on one. I

went by myself to the dean of outreach college to find out his perspective on all of this back in October. But again the main concern during all the meetings is that we don't cut online courses because students like online courses. If you want to learn more about the topic, speak to me. Please read this plan about how the changes will happen.

#### **4. SMB Fee Increase Proposal**

*President Li*

Every student pays \$13 a semester to support SMB and this was approved in the 80's. Over the past two years, the student media board has come to the 105th and 106th senate to increase their fee. They are finally putting forth their proposal to the fee committee. I'm not sure what their current proposal is but I will receive a copy of it next week. I just wanted to let you guys know this discussion will happen very soon and that this is a potential fee increase for all students. ASUH remains concerned about how they are spending their money. If you have anything you think i should bring up during the committee hearing, please tell me. The meeting and approval vote is happening on March 12th.

*Senator Salameh*

Do we as a body have to have a formal stance on this? Or are our discussions that we have had in the past be enough for you to go to that meeting and have that discussion and not say this is the student voice?

*President Li*

If we want to pass an official stance, which means passing a resolution saying yes we support or no we do not support a fee increase then i would vote the way the senate votes. But since we have no sense, I am allowed to take my consideration of what they present to me at the time of the hearing and my knowledge of past discussions. If ASUH is comfortable with saying yes or no, to make sure I vote that way, then we can do that. Any other questions? If you have any other concerns, please let me know. If there are no more questions, then we can move on to the Vice President's report.

*Measure was approved.*

#### **Treasurer**

*Treasurer Pacannuayan*

Just a short update for the budget, for january and 18 days of february, we have spent \$5,140 on bills and using the general fund. So we still have overall, 27% (\$59,000) of our entire general senate fund.

#### **Secretary**

*iSecretary Juliano*

Hello thanks for being patient with me, I've brought Dominique because she will eventually take this place, be nice and enunciate.

*President Li*

To add on, we have this new nifty senate only recording device to help address concerns

about where recordings end up after the meeting. This belongs to ASUH and will always stay in the office. If you are a vice chair we will teach you how to use this. This may also be used to committee meetings, in the case there are 2 committee meetings at the same time, we would want this to go to a committee who will be making motions. Motions and votes are most important to have a record of. Any questions?

**Administrative**

*Advisor Manini*

Just want to let you guys know, thank you to those who could volunteer at the food drop we were able to distribute 5,185 lbs of food today. We ask the people coming in the line if they were UHM students about 95% were self identified students. The rest were faculty, staff, and community members. Thank you to those who helped out. We will have to touch base with ASUH about the Vault and do a 1.5 year report to figure out if ASUH and SAPFB want to move forward after the 3 years, because if we do we have to ask CCB for an extension for the use of the room for the purpose of the vault,so I have to compile data from this last fall. I'll be looking for

- Teams are working on their respective tasks.  
No major updates at this time! Please contact me if you have any questions!

**Elections**

*Chairperson Balico*

*Our Progress:*

Hello everyone, here I have the spring general election schedule so please take a moment to go over it.

*Advisor Manini*

I just have a question for SAL Manabe, did you go over this information and make sure it follows the rules?

*SAL Manabe*

Yes and I have also checked the constitution.

*President Li*

All those in favor of approving the Spring General Election Schedule, please say aye.

*Vote was in favor; Motion carries.*

*Measure was approved.*

*Senator Balico*

I also worked with President Li on Apportionment.  
Motion to ratify the spring special elections candidate list.

*SAL Leval*

Second.

*Motion passes.*

*Chairperson Balico*

*Our Plans:*

- Packet pickup for Spring Elections is on Monday 2/24/2020

**External Affairs**

*Chairperson Leval*

*Our Progress:*

- Had EA Meeting #4 yesterday
- AS(You)H Event, please mark your calendars — Thursday, April 2 and Friday, April 3 (SB 30-20 to be introduced at ECM next week)

*Our Plans:*

- Testimony Writing Sesh #2 — Tuesday, February 25 at 5:30 in CC 310. It is not mandatory because the last one was mandatory. But if you did not go to the last one, you may go to this one to make it up.

*President Li*

I want to emphasize that we want hundreds of testimonies about your experiences with financial aid and mental health care on campus so we can drop it on the representatives desk so they keep students in mind when they approve funding for financial aid and mental health care.

*Senator Armstrong Patterson*

Will there be a flyer?

*SAL Leval*

Yes, we will just edit the date on the last one.

*Senator Armstrong Patterson*

How did the last testimony writing session go?

*SAL Leval*

The attendance of the workshop was about 30 and we were able to use a lot of the testimonies to testify the committee hearing the next day, so it was pretty successful. But it will not hurt to have more especially in the later stages when these bills are being approved.

**Finance**

*Chairperson Salameh*

*Our Progress:*

- Done with RIO Funding Workshops. Time for applications is now closed today at 4:00 PM.
- Budget for Spring 2020 RIO Funding: \$46,000 to spend

*Our Plans:*

- RIO Funding Interviews are this weekend
- Fri, 2/21 | 3 - 7pm CC 207
- Sat, 2/22 | 10am - 6pm in CC 203C
- Sun, 2/23 | 10am - 6pm in CC 203C

*Issues/Misc:*

- We need, need, need, need more senators to sign-up for RIO Funding Interviews

- Spring 2020 RIO Funding Interviews Sign-up Sheet has a lot of red vacant slots for you all to sign up for.
- Food is provided.

*President Li*

I want to heavily promote you to sign up for interview slots because it really helps you connect with other students. If you are interested in finding more about what clubs do, you can definitely find out at these RIO funding interviews.

## **Internal Affairs**

*Chairperson Manabe*

### *Our Progress:*

- Meeting 2/12, mostly discussed campus delegates and future IA plans
- Delegate application revamp ready, it still needs to be put on the website (office staff has been sent work request as of last week)
- Design request sent to Bobby for IA Campus Delegates ad (2/18)

### *Our Plans:*

- Internal Affairs work day (first week of March)
- All senate members invited to attend as we will be discussing revamp of rate sheets and awards
- No official motions will be offered
- We will be breaking the rule down into sections for discussion, and these talks will be ongoing before an official revision is offered to the Senate
- The Senate will be emailed once a date is set. Please RSVP so we can print out copies for attendees.
- Beginning construction of IA binder for future IA and leaders
- Will consult with President, senior senators and former IA leaders to compile the information

### *Issues/Misc:*

- General Education Committee (GEC) needs a delegate. They meet on Fridays from 11-12 every other week.
- Their next meeting is 2/28.
- Interested senators (or friends of senators) should contact me
- Welcome Alyssa to IA Crew!

## **Investments and Long Range Planning**

*Chairperson Ruan*

### *Our Progress:*

- Had our 3rd investments meeting last Monday to go over the Investments Portfolio with Peter.
- Most importantly the portfolio complies with the BOR

investment policies. The portfolio currently has a total market value of \$9,683,413.

- Rounding the amounts, about 62% are in equities, 32% in fixed income, and 6% in cash. We appear to have an exceptionally strong balanced account return, as we are up 19.7%, or 1.7% for this year. Most of this is led by the S&P 500, our biggest equity weight, and higher bond rates due to lower interest rates, which are expected to continue. Lots of equity in the US markets which benefits us, as they are tremendously outperforming everyone else.
- Yield curves are showing that the economy is sluggish but growing. Current factors that could possibly affect the market are the volatility of the coronavirus, and brexit.  
More information:
- Equity: most are in the S&P 500 ETF, which are relatively safe as they include about 80% of the funds from the S&P.
- Fixed income: mostly U.S treasury bonds
- Fun fact! About 21% of ASUH Operating budget comes from student fees, the other 79% comes from the portfolio.

*Advisor Manini*

I think just so everyone understands your fun fact, The big picture is when she says \$9.6 million, that is not 9.6 million to blow on things, you get to pull 5% every year and right now the seller and will budget 79% of your budget comes from being able to pull up to 5% of that funds in the prefer you to help subsidize your overall budget. The five dollars that you all pay only goes to 29% of your budget. I just want to be clear so you all understand.

*VP Rafid*  
we

I just wanted to comment that a lot of people outside they question how spend money and where it's coming from, so it is important that we tell people that the student fee that we collect is Nothing compared to what we give back to students.

*Issues/Misc:*

- We are keeping a close eye on any policy changes for the BOR.

**Student Affairs**  
*Chairperson Kim*

*Our Progress:*

- UPASS Survey is out
- Ozzi Survey to be out 2 weeks from out
- Committee has been tabling, thank you! We do need volunteers from senate to volunteer to table for the next two weeks from 10am to 2pm in front of Jamba Juice.

*Our Plans:*

- UPASS Advert request sent to Bobby

- Mega Survey- Join us next week on Monday to meet and discuss and draft the Mega Survey
- Will be tabling for the next few weeks in front of Jamba Juice

*Issues/Misc:*

- We need ASUH senators to table with us from 10am to 2pm every day (take 1 hour shifts or something)

*President Li*

I have a question about the UPASS tabling. Have any RIOs tried with tabling efforts?

*Chairperson Kim*

I put it on the list but i do not know how to go through with it yet.

*President Li*

We can discuss this further with the finance committee chair.

**Undergraduate Academic Affairs**

*Chairperson Juliano*

*Our Progress:*

- 9 More days until scholarships close!
- Mitty members have been updating master excel sheet

*Our Plans:*

- Next Friday, when the application closes, we have a committee workday at 6:00PM to have a meeting. Also for all of us to get together and start redacting names off the scholarship apps.

Move to approve special ordering of Senate Bill 29-20

Funding For

The Spring 2020 RIO Funding Process.

SAL Leval

Second.

*Motion passes.*

President Li

Will the special order person please explain why this is being special Ordered?

VP Rafid

Since the 31-20 Bill is related to our retreat, the reason why I special ordered this is because I was waiting for the response from the venue that we are planning on, and I did not get the response in time, therefore I could not provide the bill.

Motion to approve Senate Bill 31-20.

SAL Leval

Second.

*Motion passes.*

VP Rafid  
reason

Basically this is a bill to fund our retreat for the semester, The

why we are doing a bill about this is because I do not have enough funds in my vice president budget so that is why I chose to do a bill. The activity fee is for what we are going to do there. When I am planning is that for the retreat We will be going to Kualoa Ranch. We will have team building, and also go to the secret Island. The second item is food. All of these line items are estimated for like 20 to 25 people. Transportation is pretty self explanatory.

Senator Salameh

I just want to make sure you have enough money so we don't run into any complications. I know you quoted \$2000 for 20 heads for the retreat but as far as food and transportation, what do those numbers look like?

VP Rafid

Previously, I asked our office manager to give me previous retreat spending information, and I have noticed that the bus service from Roberts Hawaii is around \$280. I also still have money in my budget.

VP Rafid

I would like to make a motion to strike \$2500 under appropriations and replace it with \$2650.

**1. Senate Reapportionment**

*President Li*

Motion to accept SCR 39-20.

*SAL Kim*

Second.

*Motion passes.*

*President Li*

So you know how to have different numbers of seats per colleges, how are these numbers determined you might ask. In our Constitution it says that every three years, the president of ASUH must reconsider student demographics and allocate proper amount of senators per college. The constitution says that the maximum amount of senators we can have is 30 senators with eight executive positions. This is 38 in total, so to do this I worked with chairperson Balico to come up with numbers. We asked the Manoa institutional research office to provide us with what is the current full-time undergraduate student count. They gave us 10,384 students. We took that number and divided it by 37 positions that are available and came up with a number which is 346. This means that for every one senator, they represent 346 students. By using this knowledge, we also applied it to the colleges. We divided this 346 by the amount of enrolled in each college to get how many students per Senator the ratio should be. because

architecture only has 153 students in each senator is supposed to represent 346, mathematically they would get no senators. But due to our constitution saying that each college has to have at least one senator then they would just get one senator. So with all of those factors in mind this is what the final numbers have come to. Arts and sciences is the same with 16 seats, business now has three, college of education stays the same with two seats, engineering stays the same with three seats, and everything else is the same except for business. There is a topic that I want to bring up with you guys which is potentially splitting up arts and sciences into natural sciences and social sciences. I feel like sometimes it feels like a social science club because it is such a big number. So me and chair person Balico have been talking about splitting it up so we can get a more diverse representation. The issue of why we did not put this far away is because by looking at the constitution of ASUH, there doesn't seem to be much demand from the natural science majors. so I want to pose the question to you guys to see how you guys feel about this. If nobody feels strongly about changing it we can leave it as is. This has a big impact on the next generation of the next three years. If there are no further discussions or questions let's do a roll call vote.

*Isaac from Psychology Department*

*\*Two guests in support of this event came to present about the significance of this event. They began their presentation by showing the Senate a video. The purpose of the video was to show that our brains/minds can only focus on one thing at a time. The presentation led to a quick introduction on Psychology, another video regarding the mind being able to focus only on one thing, and a summary of the previous years' Psychology Seminar Event. One final video was shown from the event last year, with a magician presenting to an audience and connecting the magic trick to Psychology.\**

and

There will be a discussion after the magic show between the students  
those guests' placed on a panel.

*Senator Salameh*

Not frequently in ASUH do we introduce Senate Bills that specifically  
serve a certain college from senators who represent that certain college.  
So these are one of those cases that if we were to approve it that it  
would highly benefit those students under that college. I highly applaud  
the Senator who brought this to us today.

This would be a great way to make sure that it is advertised that we as  
ASUH funded this, since we tend to be blindsided by our interactions  
with our constituents on a scale like this.

My question for the guests is can they work with the fact that the  
airfare and lodging has been cut?

*Guest(s)*

We do have other ways to cover the discrepancy. The main reason for  
asking for a raise is the fluctuations in airfare; Airfare looks like \$1900  
and lodging is \$600. But we are looking at other resources.

*SAL Kim*

You guys are fine with the reimbursement process?

*Guest(s)*

Yes.

*Advisor Manini*

This is an event that isn't entirely just for Psychology students, but for  
all that are interested in this event right?

**1. Retreat - Saturday, March 7th**

*VP Rafid*

1. If you are interested to attend please reply to email and 2. If you say you're going to be there, please be there because sets going to be \$100 per head.

**2. Chair & Vice-Chair Workshop**

*VP Rafid*

This is happening tomorrow at 5pm in the ASUH office, to answer all questions you have left about your position.

**3. ASUH Mentorship Program**

*VP Rafid*

The idea of mentorship program came from extensive discussion about a lot of us are graduating and there's new people on the senate to help new and old senators to help. I decided to make a change in plan and assign people to be mentors and make it a competition. This is a competition and at the banquet at the end of sem we will recognize one team based on their performance. Pictures together onto facebook with #ASUHmentorshipprogram for points.
